Section 19 - Procedure Codes**SECTION 19-PROCEDURE CODES**

Procedure codes used by MO HealthNet are identified as HCPCS codes (Health Care Procedure Coding System). The HCPCS is divided into three subsystems, referred to as level I, level II and level III. Level I is comprised of Current Procedural Terminology (CPT) codes that are used to identify medical services and procedures furnished by physicians and other health care professionals. Level II is comprised of the HCPCS National Level II codes that are used primarily to identify products, supplies and services *not* included in the CPT codes. Level III codes have been developed by Medicaid State agencies for use in specific programs. NOTE: Replacement of level III codes is required by the Health Insurance Portability and Accountability Act of 1996 (HIPAA). Providers should reference bulletins for code replacement information.

19.2 PROCEDURE CODES

The following list of procedure codes and descriptions are for additional Radiology and EKG services which are performed on-site and which are *not* included in the ASC MO HealthNet Procedure Reimbursement Schedule. Only these services are considered for separate reimbursement in addition to the surgical procedures listed in Section 19.4 and are subject to limitations expressed in Section 13.

Reimbursement for these radiology services is based on a maximum allowable fee for the total service (facility and professional component), or for the facility component only, depending on the facility arrangement with the interpreting radiologist. Only the facility technical component of the EKG service is allowable as a facility charge and is reimbursed accordingly.

Section 19 - Procedure Codes

PROC CODE	DESCRIPTION
71010	Radiologic examination, chest single view, frontal (Total charge—facility + professional component)
71015	Radiologic examination, chest stereo, frontal (Facility component only)
71020	Radiologic examination, chest, two views, frontal and lateral (Total charge—facility + professional component)
93005.....	Electrocardiogram, routine EKG with at least 12 leads (facility component only)
